## *Welcome to our Sponsors*

**Carbon materials** have become more and more indispensable in our modern society because they are present in many applications having a direct influence on our daily life. The public is barely aware that carbon is everywhere, in our cars, planes, batteries, implants, sports goods, filters, tools, satellites, buildings, etc ... Its unique ability to build macro-scale materials from nano-sized entities has propelled carbon at the forefront of today's nano-revolution and deservedly so, given successive breakthroughs such as fullerenes (in 1985), nanotubes (in 1991) and single graphenes (in 2004).

The **Annual World Conference on Carbon** is held successively on the American, Asian, and European continents and is the major annual event for scientists and engineers working in the field of carbon materials. Indeed, it affords to 600-700 academics and people in industry from ca 70 countries involved in carbon material research and development the unique opportunity to meet and discuss their findings, views, needs and problems yearly.

Should your Company or Institution be involved in the study, synthesis and/or processing of carbon-based materials; or if you are manufacturer of high-tech characterisation tools, or a Publisher of books and journals about carbon materials science and engineering, then **Carbon'09** next year's **World Conference on Carbon** is **THE** place to come and show commitment and support for a fast-growing area.

The 2009 edition of the World Conference on Carbon, **Carbon'09**, will be organised on June 14-19, in Biarritz, France, by the French Carbon Group (GFEC). The World Conference on Carbon is a very important moment for the carbon community. We are particularly pleased this year to host it in Europe, which gives European scientists the opportunity and privilege to welcome and meet their colleagues from all over the world. We hope you can attend and actively participate at this Conference. As a science-based Company/Institution, we would like to invite you to further partake in the success of this world scientific event by **becoming one of its financial sponsors**. Your financial support

will be all the more appreciated that it will enable us to organise an event worthy of the previous editions of the Conference on Carbon (Aberdeen in 2006, Seattle in 2007, Nagano in 2008); while keeping registration fees affordable, specifically for attendees coming from countries outside the Euro zone.

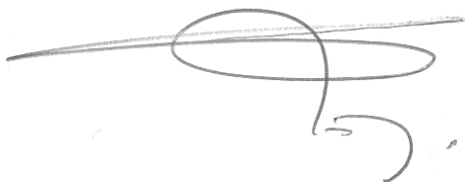

We hope you will support the next World Conference on Carbon to be held in Europe to the best of your ability. Your sponsorship in one of the categories listed below will be duly highlighted and advertised during the conference:

- Diamond sponsor: from 10 000 Euros
- Gold sponsor: from 7 000 to 9 000 Euros
- Silver sponsor: from 4 000 to 6 000 Euros
- Bronze sponsor: up to 2 000 Euros

Attached please find documents that present and describe in detail the various sponsorship plans and advertisement options being proposed to you. We hope you will find one that suits your preference and the possible level of your involvement in **Carbon'09**.

I hope I have convinced you to join our other sponsors and partners who want to make **Carbon'09** a success. I then thank you for your generosity on behalf of **Carbon'09**, its organizing committees and the many volunteers and look forward to hearing from you soon and meeting you next year in Biarritz, France.

With my Best Regards,

A handwritten signature in black ink, consisting of a long horizontal line followed by a large loop and a smaller loop below it.

Marc Monthioux  
Chair of the French Carbon Group (GFEC)  
Conference Chair, Carbon'09

**P.S. :** Please do consult the conference website, [www.carbon2009.org](http://www.carbon2009.org), to learn more about our event, the plenary conference programme (which involves world-wide renown lecturers), the composition of the Committees, the social programme, ...

## *Sponsorship options*

The World Conference on Carbon, **CARBON'09**, is a unique opportunity to put your Company forward, thanks to the various sponsorship options that will allow you to use one of the various communication tools of the conference, and/or to show your products, services, and capabilities on a stand of the exhibition area in parallel to the lecture sessions.

Several sponsorship options are made available to ascertain your visibility during the conference. The list below is not restrictive and we are open to your own proposals and queries. Please contact us.
