

June 14th (Sun) - 19th (Fri), 2009  
Espace Bellevue & Casino municipal  
Biarritz France

## ***CARBON'09 Biarritz***

***Become EXHIBITOR  
during the World Conference on Carbon***

## CARBON'09 CONFERENCE Biarritz, June 14th – 19th 2009

### Why becoming an exhibitor ?

The World Conference on Carbon is the major annual event for all scientists and engineers working in the field of carbon materials.

Carbon products have become more and more indispensable in our modern society because they are present in many applications having a direct influence on our daily life, for example, in our cars, planes, batteries, implants, sports instruments, filters, tools, satellites, buildings, etc ...

Thanks to its unique capacity to build macroscopic products from nanometric-sized entities, carbon is a main agent in the present scientific revolution which has led to the development of nano-sciences and nano-technologies, with especially the successive advent of fullerenes (in 1985), nanotubes (in 1991) and single graphenes (in 2004).

Should you be :

- **a company involved in carbon materials synthesis,**
- **a producer of high-tech characterisation tools,**
- **a publisher of books somehow dealing with carbon material science and engineering,**

... the World Carbon Conference, **CARBON'09**, is the place to come to exhibit your latest achievements and products in your field. Remember that this opportunity will not occur in Europe again before three years.

IMPORTANT, be aware that the number of available stands will be limited to a maximum of 12!  
So, **DO NOT WAIT FOR THE LAST MINUTE TO BOOK YOURS!**

And go to our website for online reservation: [www.carbon2009.org](http://www.carbon2009.org)

Best regards,

On behalf of the Organisation Committee

Marc MONTHIOUX  
*Chairman of the French Carbon Group (GFEC)*

**The Organisation Committee :**

**Conference Chair :** **Marc Monthioux** CEMES, UPR CNRS, University of Toulouse  
Chairman of the French Carbon Group (GFEC)

**Bénédicte ALLARD:** CARBONE SAVOIE, Vénissieux

**François BEGUIN:** CRMD, UMR CNRS-University of Orléans

**Guy FURDIN:** LCSM, UMR CNRS-University of Nancy

**Catherine MORLAY:** IRCE-LYON, UMR CNRS-University of Lyon

**The Preparatory Programme :**

This Conference takes place during 5 days combining plenary lectures and topical sessions.

**Subjects of the Plenary lectures:**

"Carbon in the Universe"

"The role of carbon in Earth climate" by Hervé LE TREUT (France)

"Imaging individual carbon atoms in the nano-world" by Kazutomo SUENAGA (Japan)

**Topics of Sessions :**

T1	Natural carbons (geological and extraterrestrial carbons)
T2	Carbons grown or deposited from gas phase and plasmas (diamonds, nanocarbons...)
T3	Carbons from "soft" precursors (pitches, polymers), including their primary and secondary carbonisation, graphitisation
T4	Energy storage and conversion
T5	Carbon-based composites, nanocomposites, and components (fibres, nanotubes, matrices,...) for mechanical properties (thermo- structural, tribological...)
T6	Chemical and physical modifications: functionalisation, doping, intercalation, exfoliation, solid state transformations
T7	Liquid and gas storage, adsorption (and environmental uses)
T8	Electronic, optical, opto-electronic properties and applications (field emission, sensors, circuitry,...)
T9	Nuclear and solar applications, thermal management
T10	Carbons related to biology, toxicity, and health
T11	Advances in processing, characterisation, and modelling

## A unique Area to exhibit

### Biarritz :

After Seattle in the USA in 2007 and Nagano in Japan in 2008, the World Carbon Conference plans to welcome in Biarritz about 700 participants, coming from more than 70 countries with the aim of sharing their experiences, showing their results, and contributing to new applications based on this fascinating material, CARBON.

### The Bellevue Building

The Conference will be held in two Casinos built in the early XXth Century, and recently renovated.

They are both located in the heart of the city, on the sea front. The *Bellevue* Building is one of them.

All the accommodations are at walking distance from the meeting center.

### Atlantique Room:

In continuation of the *Rotonde* room, the *Atlantique* room is a multi-purpose room of up to 1 200 m<sup>2</sup> for 83 metres long, with an open view on the bay of Biarritz.

**7 stands will be displayed in this room, in which the poster sessions will take place, and 5 other stands will be located in the Gallery where the coffee breaks will take place** (see the exhibition map).

## TECHNICAL DESCRIPTION OF THE STAND

### ➤ The stand

Modular stand with back and side wall.  
1 table and 2 chairs

🚧 Modular stand 6 m<sup>2</sup> : .....

..... 1.200 € TTC

### Stand - 6 m<sup>2</sup>

- 🚧 Modular stand with back wall and partition in beech-coloured melamine
- 🚧 2 kW power supply with three sockets and electricity consumption
- 🚧 Plain sign (without logo)
- 🚧 1 rail with 3 spotlights of 100 W each
- 🚧 1 rectangular table
- 🚧 2 chairs

### STAND 6 m<sup>2</sup> -

1.200 € TTC

#### The registration includes:

A 6 m<sup>2</sup> stand, access for one person to the conference halls, conference proceedings documents, Welcome Party on Sunday evening, lunches from June 15<sup>th</sup> to 18<sup>th</sup>, coffee breaks from June 15<sup>th</sup> to 19<sup>th</sup>. 2 buffet dinners around the posters and the stands are also scheduled and included.

**You can book 2 modules - 12m<sup>2</sup>- for a better identification !**

**Rates for a co-exhibitor : 500 €/pers**

If you want to use your own stand, please contact us: [carbon2009@terresbasques.com](mailto:carbon2009@terresbasques.com)

**Services included:** electricity supply

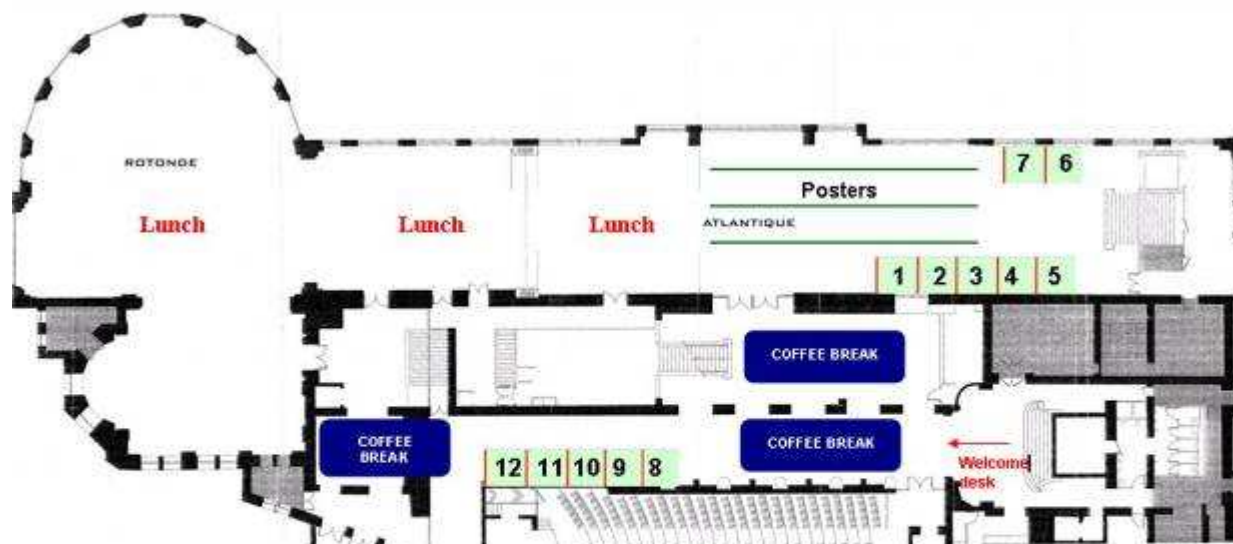

**Insurance policy:** exhibitors must hold an extension to their company's public liability insurance.

**Cleaning:** The general cleaning of the communal areas of the exhibition will take place every morning before the opening of the conference.

**Internet access:** The equipment of the Building of the conference and the exhibition "wifi free access" is for the study

**You can join us for the CONFERENCE DINNER (on Thursday evening) and any other evening event** that will be organised (in addition to the Welcome Party on Sunday): **100 €/pers.**

## EXHIBITION MAP

CARBON 2009

## EXHIBITION MAP

### Stands 1 to 7 Atlantique Room :

In this area, will take place 3 poster sessions of 3 hours each.

### Stands 8 to 12 Gallery :

Coffee breaks (2/day Monday to Thursday, 1 on Friday), of 20 minutes each, will take place in the Gallery.

June 14th (Sun) - 19th (Fri), 2009  
Espace Bellevue & Casino municipal  
Biarritz France

**TO REGISTER to the CONGRESS and reserve your STAND**, we invite you to join online via the web site or by sending back the enclosed booking form.
