## *Technical*

**680 REGISTERED PARTICIPANTS**

**~70% REGULAR (seniors, postdocs...)**

**~30% STUDENTS**

(not including accompanying persons)

**including ~73 no-shows + cancellations**

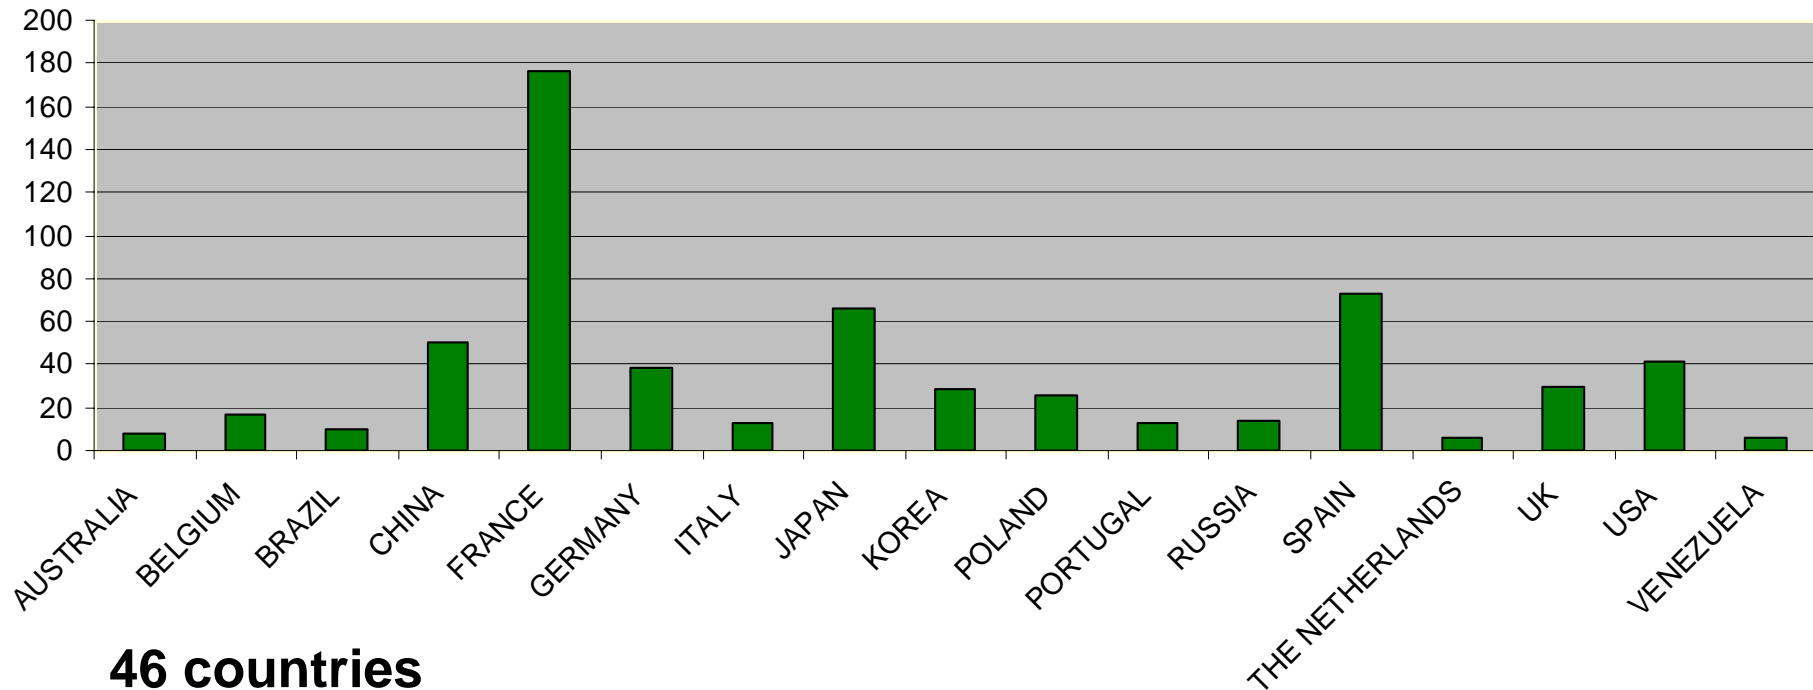

Year	Carbon '02	Carbon '03	Carbon '04	Carbon '05	Carbon '06	Carbon '07	Carbon '08	Carbon '09
Location	Beijing China	Oviedo Spain	Providence RI USA	Gyeongju Korea	Aberdeen Scotland UK	Seattle WA USA	Nagano Japan	Biarriz France
Number of Short Abstracts received <sup>1</sup>	468	600	570	~620	756	(459)	673	929
Number of attendees at full rate			309	~443		281		430
Number of attendees at reduced rate			114	~118		101		167
Total number of attendees <sup>2</sup>	460	469	435	~590	~565	421	650	607
[Number of attendees at full rate] / [total number of attendees] ratio			0.71	~0.75	~0.70	~0.68		~0.71
[Number of Short Abstracts received] / [total number of attendees] ratio	1.02	1.28	1.30	1.05	1.35	>1.09	1.04	1.53

<sup>1</sup>The number is that of abstracts initially submitted, i.e., it still includes the abstracts subsequently cancelled whatever the reason, and the no-show papers (except for Carbon'07, where it is the number of Extended Abstracts published).

<sup>2</sup>This number may be higher than the sum of the two previous lines, since it may include participants with free registration, or other special cases. Accompanying persons not included

## COUNTRY CARBON 2009

**46 countries**

**85 no-show (+ cancellation) papers: including the no-shows from**

**China (33), Russia + Ukrainia (10), Africa (8), Korea (6), Europe (3), South America (2), Iran (2), USA (1)**

*Scientific*

## Highlights

### Plenary lectures

- Carbon in space: needs for model materials
- Carbon cycle: carbon capture
- Carbon and health: a 40 years-old history
- HRTEM: The King tool

*Scientific*

## Highlights

### Forefront topics

- Topics:
  - Adsorption: still the most popular
  - Toxicity, environnement
- Materials:
  - Nanotubes, graphenes
  - Xerogels, aerogels, foams,...
  - Carbon + something (dopant, catalyst,...)
- Tool:
  - (TEM-related techniques, Raman)
  - Modelling
