

The Brian Kelly Award 2009

The
British Carbon Group

This annual award was established in 1996 by the British Carbon Group in memory of Brian Kelly, a leading authority on the physics of graphite.

The award is intended as a travel grant for students and early career researchers with up to ten years postdoctoral experience to attend the annual World Carbon Conference. Anyone living or working, at the time of that conference, in the country where the conference is held is *not eligible*. As a consequence, applications will not be accepted from France on this occasion.

The award is made upon the basis of an appraisal of THREE documents: (1) the extended abstract or paper as submitted to the C2009 conference, (2) a short CV (with the date of the award of PhD if applicable) and (3) a commentary provided normally by the candidate's supervisor or close colleague. Self-nomination is permitted. The Award Committee of the British Carbon Group will determine the successful applicant.

The closing date for applications for C2009 will be **30th April 2009**.

The award is currently five hundred pounds sterling (£500) and is presented at the time of the conference with a certificate. It is a condition of the award that the winner attends the conference and presents his or her paper either orally or as a poster.

Applications may be transferred electronically to the Chairman of The British Carbon Group, Dr Gareth Neighbour, at g.b.neighbour@hull.ac.uk or, exceptionally, mailed to him at the following address:
